

You don't take a photograph.  
You ask, quietly, to borrow it.

## Why take photos at a funeral?

At a time of grief, memories and details can be lost in the moment.

By photographing or videoing the actual funeral, a visual presentation is kept for you to view at a time that suits you. It's one more thing you don't have to worry about, as you can be assured of my presence and your precious memories are preserved for future generations.

The photographic DVD of the Service can also be uploaded to the internet, to share with distant family and relatives.

You will have a unique visual presentation to celebrate and reflect on your Loved One's life, to keep forever. Many families now celebrate at a Wake, and these special family memories can be kept on digital format.

**A photographic DVD can be sent to distant family and Loved Ones.**
